Innovative Solutions for Modern Security

In today's world, security and control are the foundation of trust. We specialize in designing and delivering cutting-edge key management systems that seamlessly combine:

- ▶▶▶ Innovative Technology
- ▶▶▶ Unmatched Reliability
- ▶▶▶ Effortless Usability

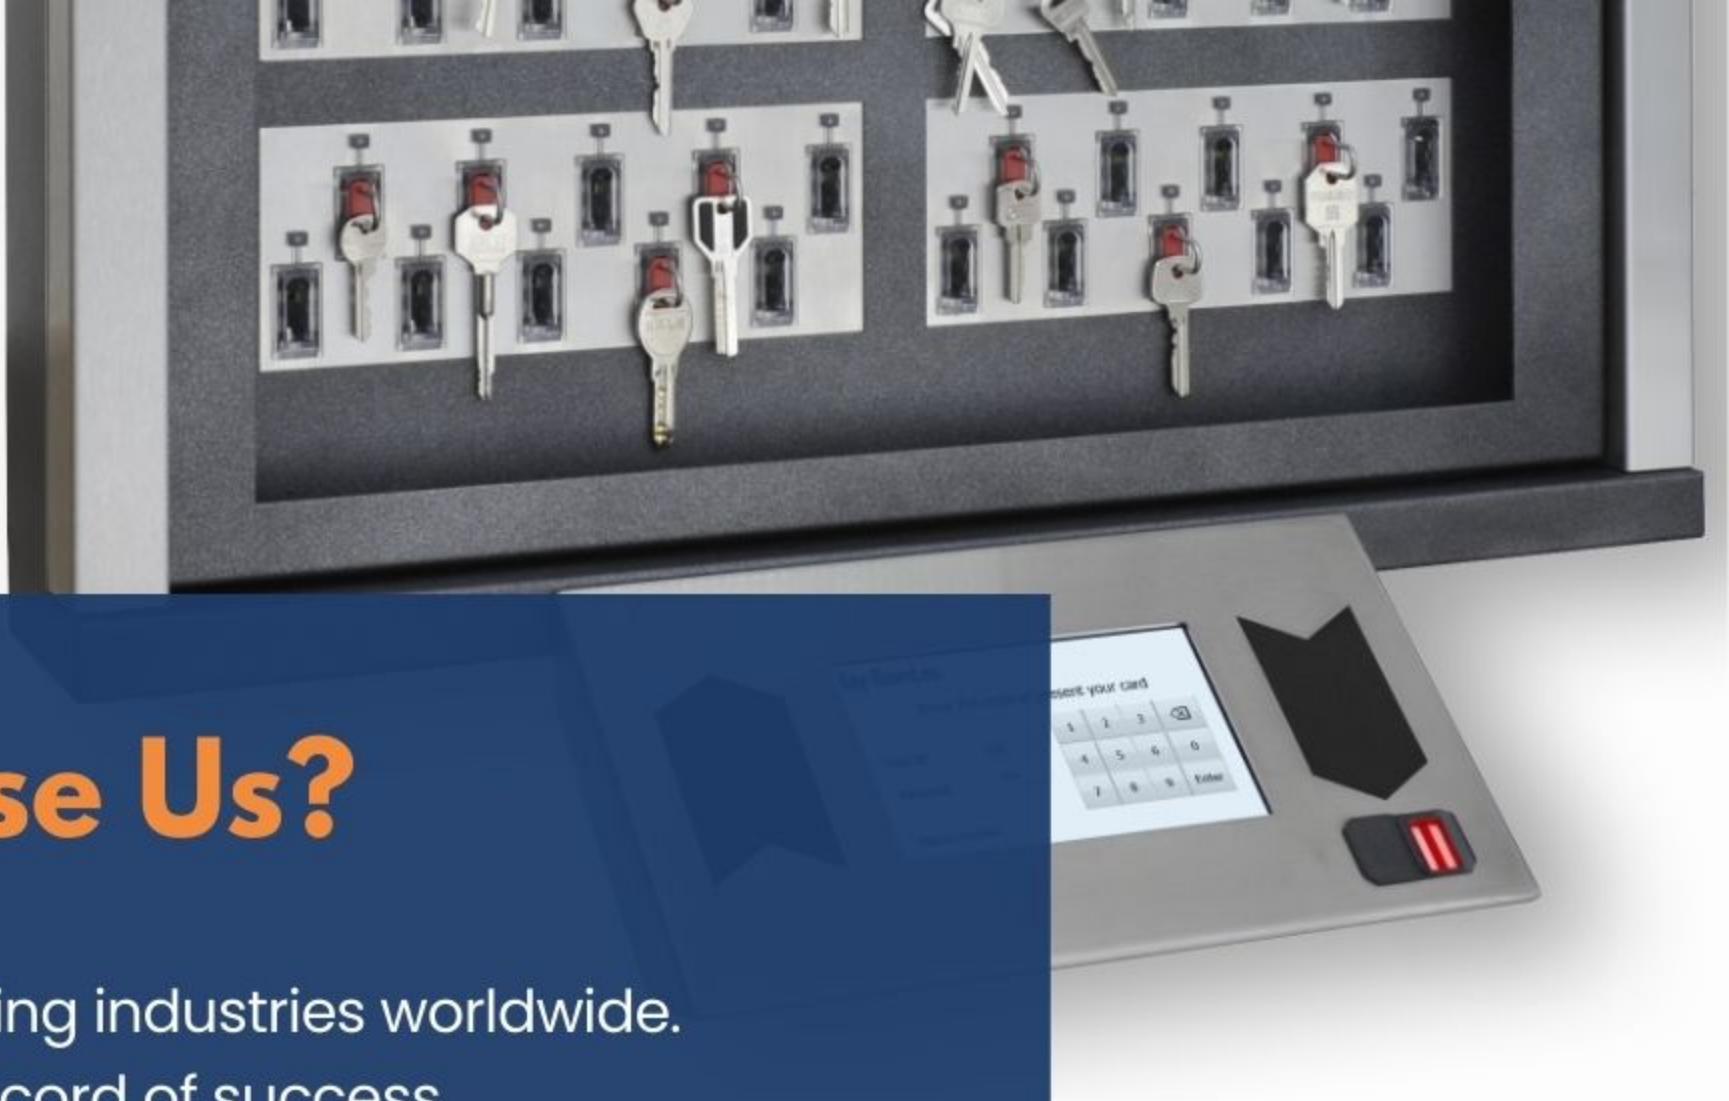

Our solutions empower businesses and organizations across Europe to:

- ▶▶▶ Manage access with precision
- ▶▶▶ Minimize operational risks
- ▶▶▶ Ensure complete peace of mind

Why Choose Us?

- ▶▶▶ 15+ Years of Expertise: Trusted by leading industries worldwide.
- ▶▶▶ Thousands of Projects: Proven track record of success.
- ▶▶▶ In-House Manufacturing: Ensures quality and reliability at every step.
- ▶▶▶ Sophisticated Design: Sleek, functional, and user-focused.
- ▶▶▶ Premium Quality: Built to last, tested for excellence.
- ▶▶▶ Competitive Pricing: Lower costs without sacrificing quality.

KeyGuard - Advanced Key Management System

01

Automatic Key Issue & Storage:
Seamless access control.

02

User-Friendly Interface: Simple,
intuitive operation.

03

Auto Set Arm/Disarm: Integrated
intrusion system control.

04

Software Development Kit: Customize
and extend functionalities.

05

Cell Backlighting: Clear visibility in all
conditions.

06

SmartKeys: Lock/Unlock functionality for
added security.

KeyGuard: Secure Storage & Automation Features

Efficient Key Storage

Smart Key Fobs

Effortlessly and securely store your keys on smart key fobs with quick access capabilities.

Secure Storage Boxes

Safeguard your keys in specialized boxes with high-level security features.

Key Features

- Automation
- Ease of Use
- Reliability

Attention to Detail: Excellence in Design

Sleek and Modern Design

- **Ultra-Slim Control Panel** – Slim, minimalist design that enhances modern aesthetics.
- **Concealed Card Readers** – Integrated seamlessly for a clean, unobtrusive look.

Compact and Innovative Features

- **World's Thinnest Key System** – Revolutionary design offering compact functionality without compromising performance.

Elegant Lighting and Premium Finishes

- **Top LED Strip Lighting** – Stylish lighting that adds elegance and enhances visibility.
- **Premium Finishes** – Special color and stainless-steel inserts for a luxurious and refined look.

High-Quality Elements for Modern Security Systems

Premium Components for Uncompromising Performance

Locks and Mechanisms

- Abloy HSS Lock – Superior security from a global leader.
- Eff-Eff Electric Lock – German quality and reliability in every detail.

Hinges and Mounting Elements

- Stainless Steel Hinges – Durable, corrosion-resistant, and built to last.

Power Supply and Protection

- Power Supply – Engineered for reliable and stable operation.
- Door Contact with Sabotage Protection – Advanced technology for maximum safety and security.

User-Friendly Interface: Simple and Efficient

No Hidden Fees – Always Free Software!*

- No Subscription Fees
- Free Updates
- Full Functionality

**Our software is completely free to use, with no extra charges.*

- ▶ **Advanced Search Capabilities**
 - Search by name or number.
 - Quick data retrieval with filter options.
- ▶ **High-Visibility Display**
 - Ultra-bright TFT screen for clear visuals.
- ▶ **User-Friendly Interface**
 - Simple, efficient design with large fonts and buttons.
- ▶ **Enhanced Functionality**
 - Dual readers for key check-in/check-out.
 - Optional biometric fingerprint security.
- ▶ **Comprehensive Management**
 - Event tracking and easy group key distribution.
- ▶ **Full System Control**
 - Integrated Windows software for customization.

Included Windows Software & Network Integration

Key Management & Monitoring

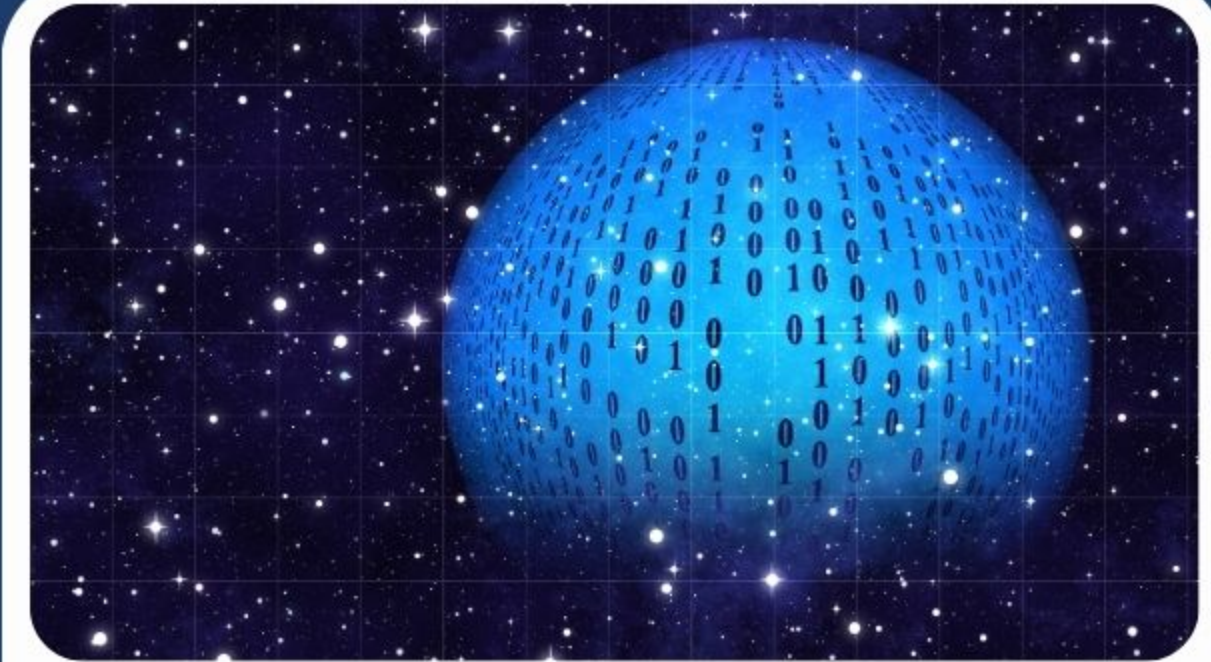

- Set and Edit Key Access Levels – Easily configure and manage key access permissions.
- Real-Time Key Status – Monitor key status online for instant updates.

Late Key Return Alerts – Automatic alarms when keys are overdue.

Reporting & Site Management

- Report Generation – Print detailed reports for complete oversight.
- Graphical Site Maps – Visualize your site layout for easier management.

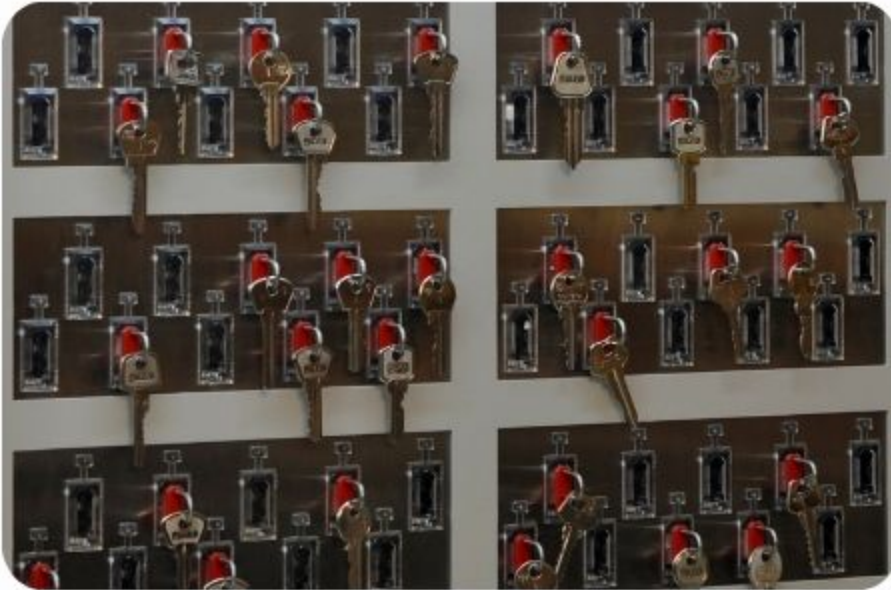

Alerts & Remote Control

- SMS & Email Notifications – Receive instant alerts on key events.
- Remote Control – Full system control from any location.
- Alarm Management – Handle and respond to system alarms efficiently.
- Network Connectivity – Smooth, efficient communication across all devices.

Customizable Setup & Integration

Large Capacity & Scalability

- Manages from 20 to 2000 keys with a single control panel.
- Supports up to 50,000 users and 50,000 events in non-volatile memory.
- Scalable key management for future expansion.

Customization & Flexibility

- Choose from glass, solid steel, or no door based on your preferences.
- Control panel installation options: bottom or right side for optimal placement.
- Available in 3, 5, 10 and 12-module configurations.

Seamless Integration & Connectivity

- Ethernet, RS485, and RS232 for smooth integration.
- Modular cabinets for adaptable setup.

Key Management Solutions

Automatic Key Management

- Automatic issue and storage of keys for streamlined operations.
- Automatic event logging for secure and accurate record-keeping.
- Automatic arming and disarming of the intrusion system.

Emergency Key Storage

- Secure storage of emergency keys (for fire or other urgent cases).

Operational Benefits

- Reduces staff requirements, leading to real savings.
- Increases the overall security level of the site.
- Shortens the time required to issue keys in emergency situations (e.g., fire alarm).

Markets of Key Management Systems

Transportation, Infrastructure & Energy

- Airports & Transportation
- Car Dealerships & Automotive Fleets
- Utility Site Security
- Energy Infrastructure
- Marine & Cruise Ships

Commercial, Industrial & Retail

- Business Offices & Corporate Campuses
- Manufacturing & Industrial Facilities
- Mining Industry
- Retail Stores & Shopping Centers
- Data Centers
- Casinos & Gaming Industry
- Distribution & Logistics
- Banks & Financial Services

Government, Military & Public Sector

- Government Institutions & Municipal Buildings
- Military Facilities
- Police & Emergency Services
- Prison Security Solutions

Residential & Property Management

- Residential Complexes & Apartment Buildings
- Hotels
- Holiday Rentals & Student Housing
- Senior Care & Homecare Facilities
- Property Management Solutions
- Car Parks & Technical Rooms

Education & Healthcare

- Educational Institutions
- Healthcare Facilities
